## **"YOUR INVITED"**

**To participate in two good things!**

### **INVITATION 1**

For those people considering applying to be part of the exciting new role out of the DSA self managed funding applications close on November 26th 2009

Please ensure you lodge your application soon. Disability Speaks understands the Government intends to make implementing this program an urgent priority and that it is hoped some recipients will be established and have accessible funding early in 2010.

Already there has been great interest and the program is gathering exciting momentum.

A short weblink to self managed funding information has been created to improve useability:
