floor on the evening. All questions should be submitted online prior to the event and may be presented on the evening by disability sector leaders. A crowd of 400 is expected.

If you are a person with a disability, a family carer, NGO, or disability sector worker or supporter you should attend. Please circulate this important meeting information widely to your contacts, database, friends and clients. It would be particularly beneficial if all NGO could mail a paper copy to their client and association lists. Let's show them how serious the problem in disability services is and get maximum attendance. An A4 notice board format version will be distributed next week.
