

# Enable Adelaide....

**MEDIA RELEASE: October 16th, 2014**

The City of Adelaide and Enable Development are working together to help all people, including those with disabilities or access needs and those who spend time with them, get the info they need to enjoy and use the city in the easiest ways possible.

We are looking at developing a way to share accessibility and other disability related information with the people who can and will use it.

The Enable Development team are ALL folks with lived experience of disability – we use wheelchairs, we wear hearing aids, we speak differently, we have assistance dogs, we have sensory overload issues or we live with someone who does, and we are not here for lip service.

There are a few different ways you might be able to help us.

1. We will make sure that we use your survey answers to shape how we recommend accessibility info is delivered to those who need it. Answers can be anonymous.
